

## Acti 9 Miniature Circuit Breakers - MCBs

**BOX QUANTITIES ONLY**

Acti9 iC60a circuit breakers are multi-standard circuit breakers which combine the following functions:

- circuit protection against short-circuit currents,
- circuit protection against overload currents,
- suitable for industrial isolation according to IEC/EN 60947-2, standard.
- fault tripping indication by a red mechanical indicator in circuit breaker front face

Giving you absolute peace of mind when it comes to circuit protection and continuity of service, our miniature circuit breakers are ideal if you are working within polluted environments and networks. Offering circuit protection against short-circuit and overload currents, suitable for isolation in compliance with IEC 60947
